

Desert Montessori Academy has our whole hearted recommendation. We couldn't be more pleased with the education and socialization that our son has received over the past two years. Being an Air Force family who frequently move, it was wonderful for us to find this gem of a school where we immediately felt like family.

The transition for our son into this school was seamless. The children are the friendliest we've seen and this reflects well on the environment that the teachers provide. My son loves the variety of work available. Your child will not sit mindlessly completing worksheets, but instead will be stimulated using hands-on, fun activities; my son has found that learning is fun. He enjoys school so much that he often gets upset when we pick him up at the end of the day, he wants to stay!

It was also nice to meet the friendly parents many of whom are in the Air Force too. This is the best educational experience we've had with any of our children, and we are thankful for the exceptional start they have given our son.

Sincerely
Lt. Col. & Mrs. Ireton
